

ASCOMETAL® A partner to your success

VITAC® 3000

*A unique high-performance machining steel*

#### Typical end use

Tool holders, camshafts, gears, printing press rollers...

### Properties

- **Controlled sulphur** content;
- **Control of the inclusion** count;
- Highly **reproducible** machining;
- Guaranteed **cleanness**.

### Advantages

- **Improved cutting** conditions;
- Longer **tool life**;
- Improved **chip fragmentation**.

### Benefits

- **Economic gains**;
- **Shorter manufacturing times**;
- **Reduced tooling costs**;
- **Operating properties identical** to the standard grade with identical mechanical properties.
