

ASCOMETAL® A partner to your success

VITAC® 3000

A unique high-performance machining steel

Ascometal® has a wide offer of steels with improved machinability. These products allows optimized usage conditions.

Typical end use

camshafts, gears...

Properties

- **Controlled sulphur** content;
- **Control of the inclusion** count;
- Highly **reproducible** machining;
- Guaranteed **cleanness**.

Advantages

- **Improved cutting** conditions;
- Longer **tool life**;
- Improved **chip fragmentation**.

Benefits

- **Economic gains**;
- **Shorter manufacturing times**;
- **Reduced tooling costs**;
- **Operating properties identical** to the standard grade.
